

BEAM MAKES THE CASE

Beam iPad cases are built on years of protecting iPhones in hospital settings. Beam's impact-resistant polycarbonate shell is ready to protect your iPads from drops in healthcare, education, and field service.

Our disinfectant-ready plastics allow for high-grade cleaners—we go way beyond anti-microbial. Our cases are designed to mitigate dust and liquid incursion and they are VESA-compatible for flexible mounting applications.

With unimpeded access to the iPad ports, you can connect multiple units for charging and provisioning in multi-bay sync & charge cabinets. Beam iPad cases offer proven protection in hospital hallways, classrooms, and remote job sites.

BEAM FOR IPAD

DURABLE & PROTECTIVE

Made with the highest quality industrial grade materials, Beam for iPad is a 4' drop-rated, splash and dust-resistant case with screen protector.

MOUNTABLE

Removable rear-facing adapters with an alternate cover plate to make it easy to connect to any VESA-compatible mounts, shoulder straps, and stands.

CLEANABLE

Resists the corrosive effects of cleaners and disinfectants including PDI, Clorox & Caviwipes, and other bleach, alcohol, peroxide and ammonia based solutions.

TRUSTED

Beam cases have been put through years of testing in demanding environments. We are a proven partner for your mobile device deployment.
